Rheinmetall Automotive at the 2018 SAE WCX

Rheinmetall Automotive to Showcase Latest Technologies at SAE International WCX World Congress Experience in Detroit

Rheinmetall Automotive and its brands KS Kolbenschmidt and Pierburg will showcase technology for today and the future at the SAE International WCX World Congress Experience being held April 10-12 at Cobo Center in Detroit, MI.

“As a technology company, Rheinmetall is eager to offer our engineers access to the latest market trends, showcase our technologies and connect with current and prospective customers,” said Stevan Zivanovic, President, Mechatronics North America, Pierburg US, LLC.

Rheinmetall will showcase its latest technology at Booth #2007.

The three-day event will feature in-depth and engaging discussions throughout its Leadership Summit and Tech Hub programs. Its main purpose is to connect, emphasize active learning and increase collaboration between exhibitors and attendees. Besides a show floor, the event features numerous technical sessions.

Rheinmetall was established in 1889 as Rheinische Metallwaren- und Maschinenfabrik Aktiengesellschaft. Today, Rheinmetall AG, publicly listed and based in Düsseldorf, is a powerful, internationally successful corporation and is the management holding company of the Rheinmetall Group. As an integrated technology group, Rheinmetall is a market leader in the areas of environmentally friendly mobility and threat-appropriate security technology. The group’s operating activities are split into the two corporate sectors, Rheinmetall Defence and Rheinmetall Automotive.
